## Product Datasheet

### **SRC recombinant monoclonal antibody, clone 21H5, Clone: [21H5], Monoclonal ABN-RAB04355**

|                          |                                                                                     |
|--------------------------|-------------------------------------------------------------------------------------|
| Artikelname              | SRC recombinant monoclonal antibody, clone 21H5, Clone: [21H5], Monoclonal          |
| Artikelnummer            | ABN-RAB04355                                                                        |
| Hersteller Artikelnummer | RAB04355                                                                            |
| Alternativnummer         | ABN-RAB04355-100                                                                    |
| Hersteller               | Abnova                                                                              |
| Kategorie                | Antikörper                                                                          |
| Applikation              | ELISA, FC, IF, WB                                                                   |
| Spezies Reaktivität      | Human                                                                               |
| Immunogen                | Original antibody is raised against a synthetic peptide corresponding to human SRC. |
| Produktbeschreibung      | Rabbit recombinant monoclonal antibody raised against human SRC....                 |
| Klonalität               | Monoclonal                                                                          |
| Klon-Bezeichnung         | [21H5]                                                                              |
| UniProt                  | 6714                                                                                |
| Puffer                   | In PBS, pH7.4 (150mM NaCl, 50% glycerol and 0.02% sodium azide)                     |
| Formulierung             | Liquid                                                                              |

| Target-Kategorie       | SRC                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | ELISAFlow CytometryImmunofluorescence (1:20-1:200)Western Blot (1:500-1:5000)The optimal working dilution should be determined by the end user. |
