| Hersteller               | Abnova                                                                                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                                                                                              |
| Applikation              | ELISA, FC, ICC, IF, IP, WB                                                                                                                                                                                                              |
| Immunogen                | A synthetic peptide corresponding to HA tag.                                                                                                                                                                                            |
| Konjugation              | Unconjugated                                                                                                                                                                                                                            |
| Produktbeschreibung      | Alpaca VHH recombinant monoclonal antibody raised against HA tag mouse IgG2b....                                                                                                                                                        |
| Puffer                   | In 10 mM PBS, pH 7.5 (0.05% sucrose, 0.1% trehalose, 0.01% proclin 300, 50% glycerol)                                                                                                                                                   |
| Formulierung             | Liquid                                                                                                                                                                                                                                  |
| Application Verdünnung   | ELISA (1:5000-1:20000)Flow cytometry (1µg for 106 cells)Immunocytochemistry (1:200-1:1000)Immunofluorescence (1:200-1:1000)Immunoprecipitation (1-2 µg)Western Blot (1:5000-1:20000)The optimal working dilution should be determined b |
