### ENG (Human) Recombinant Protein ABN-P10219

|                          |                                                                                                                             |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | ENG (Human) Recombinant Protein                                                                                             |
| Artikelnummer            | ABN-P10219                                                                                                                  |
| Hersteller Artikelnummer | P10219                                                                                                                      |
| Alternativnummer         | ABN-P10219-100                                                                                                              |
| Hersteller               | Abnova                                                                                                                      |
| Wirt                     | Human                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                            |
| Applikation              | ELISA, FA                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                       |
| Produktbeschreibung      | Human ENG (P17813-1, Glu26-Gly586) partial recombinant protein with His-Avi tag at C-terminus expressed in HEK293 cells.... |
| Tag                      | His-Avi                                                                                                                     |
| UniProt                  | 2022                                                                                                                        |
| Puffer                   | Lyophilized from filtered solution in PBS, pH 7.4 (8% trehalose).                                                           |
| Reinheit                 | >=95% as determined by Tris-Bis PAGE, >=95% as determined by HPLC                                                           |
| Formulierung             | Lyophilized                                                                                                                 |
| Sequenz                  | Glu26-Gly586                                                                                                                |
| Target-Kategorie         | ENG                                                                                                                         |

Application Verdünnung

Biological Activity ELISA SEC-HPLC Tris-Bis PAGE  
The optimal working dilution should be determined by the end user.
