| Spezies Reaktivität      | Human, Mouse, Xenopus                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human Cdk2 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | In vertebrates, as in yeast, multiple cyclins have been identified, including a total of eight such regulatory proteins in mammals. In contrast to the situation in yeast, the Cdc2 p34 kinase is not the only catalytic subunit identified in vertebrates... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.2 mg/mL                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [AN4.3]                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 34 kDa                                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                                                                    |
