| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Full-length of human Growth Hormone (GH) protein                                                                                                                                                                                                              |
| Produktbeschreibung      | Pituitary growth hormone (GH) plays a crucial role in stimulating and controlling the growth, metabolism and differentiation of many mammalian cell types by modulating the synthesis of multiple mRNA species. These effects are mediated by the binding ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.2 mg/mL                                                                                                                                                                                                                                                     |
