| Immunogen                | Synthesized peptide derived from human MLKL Phospho-ser345                                                                                                                                                                                                    |
| Produktbeschreibung      | This gene belongs to the protein kinase superfamily. The encoded protein contains a protein kinase-like domain, however, is thought to be inactive because it lacks several residues required for activity. This protein plays a critical role in tumor ne... |
