| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | ELISA, IF, IHC, WB                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                              |
| Immunogen                | The antiserum was produced against synthesized peptide derived from human MMP-9. AA range:651-700                                                                                                                                                              |
| Produktbeschreibung      | matrix metalloproteinase 9(MMP9) Homo sapiens Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remode... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">P14780</a>                                                                                                                                                                                                                                         |
| Quelle                   | Polyclonal, Rabbit IgG                                                                                                                                                                                                                                         |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                          |

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                              |
| Application Verdünnung | WB 1:500 - 1:2000. IHC: 1:100-300 ELISA: 1:20000. IF 1:100-300 Not yet tested in other applications. |
