| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Purified recombinant human ATIC protein fragments expressed in E.coli.                                                                                                                                                                                        |
| Produktbeschreibung      | This gene encodes a bifunctional protein that catalyzes the last two steps of the de novo purine biosynthetic pathway. The N-terminal domain has phosphoribosylaminoimidazolecarboxamide formyltransferase activity, and the C-terminal domain has IMP cyc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P31939</a>                                                                                                                                                                                                                                        |
| Quelle                   | Monoclonal, Mouse                                                                                                                                                                                                                                             |
| Reinheit                 | The antibody was affinity-purified from mouse ascites by affinity-chromatography using epitope-specific immunogen.                                                                                                                                            |

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| Application Verdünnung | wb 1:1000                                                               |
