| Immunogen                | Synthetic Peptide of CD25                                                                                                                                                                                                                                     |
| Produktbeschreibung      | The interleukin 2 (IL2) receptor alpha (IL2RA) and beta (IL2RB) chains, together with the common gamma chain (IL2RG), constitute the high-affinity IL2 receptor. Homodimeric alpha chains (IL2RA) result in low-affinity receptor, while homodimeric beta ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
