| Immunogen                | Synthesized peptide derived from human Cytokeratin 18 AA range: 200-300                                                                                                                                                                                       |
| Produktbeschreibung      | KRT18 encodes the type I intermediate filament chain keratin 18. Keratin 18, together with its filament partner keratin 8, are perhaps the most commonly found members of the intermediate filament gene family. They are expressed in single layer epithe... |
