| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Synthesized peptide derived from human Myosin Heavy Chain, Smooth Muscle AA range: 300-400                                                                                                                                                                    |
| Produktbeschreibung      | The protein encoded by this gene is a smooth muscle myosin belonging to the myosin heavy chain family. The gene product is a subunit of a hexameric protein that consists of two heavy chain subunits and two pairs of non-identical light chain subunits.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
