## Product Datasheet

### Interleukin-8 (IL-8), Clone: [I8-61], Mouse, Monoclonal ANO-MO-C40017E

|                          |                                                            |
|--------------------------|------------------------------------------------------------|
| Artikelname              | Interleukin-8 (IL-8), Clone: [I8-61], Mouse, Monoclonal    |
| Artikelnummer            | ANO-MO-C40017E                                             |
| Hersteller Artikelnummer | MO-C40017E                                                 |
| Alternativnummer         | ANO-MO-C40017E-0.5MG, ANO-MO-C40017E-0.1MG                 |
| Hersteller               | Anogen-Yes Biotech Laboratories                            |
| Wirt                     | Mouse                                                      |
| Kategorie                | Antikörper                                                 |
| Applikation              | EIA, NT, WB                                                |
| Spezies Reaktivität      | Human                                                      |
| Immunogen                | Purified recombinant human IL-8                            |
| Produktbeschreibung      | Mouse monoclonal antibody to human interleukin 8 (IL-8)... |
| Klonalität               | Monoclonal                                                 |
| Klon-Bezeichnung         | [I8-61]                                                    |
| Isotyp                   | IgG1,k                                                     |
| Reinheit                 | Protein G affinity purified                                |
| Formulierung             | Aff. pur.                                                  |
| Lagerung                 | Store at -20°C                                             |
| Target-Kategorie         | Human IL-8                                                 |

|                        |                                                                                                                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL                                                                                                                                                                                          |
| Anwendungsbeschreibung | <p>ELISA: React with human IL-8. Matched pair antibodies are available</p> <p>Neutralizing: In chemotaxis assay, the antibody inhibited 97 % of the chemotactic activity of IL-8 on RB/293 cell using 5 Ug/ml of MAb and 10ng/ml of human IL-8 in assay. This antibody...</p> |
