| Hersteller               | Anogen-Yes Biotech Laboratories                                                                                                 |
| Wirt                     | Mouse                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                      |
| Applikation              | EIA, NT, WB                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                           |
| Immunogen                | Purified recombinant human MCP-1                                                                                                |
| Produktbeschreibung      | Mouse monoclonal antibody to human Monocyte Chemotactic Protein-1 (MCP-1)/ Monocyte Chemotactic and Activating Factor (MCAF)... |
| Klonalität               | Monoclonal                                                                                                                      |
| Klon-Bezeichnung         | [S382]                                                                                                                          |
| Isotyp                   | IgG2b, k                                                                                                                        |
| Reinheit                 | Protein G affinity purified                                                                                                     |
| Formulierung             | Aff. pur.                                                                                                                       |

|                        |                                                                                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | Store at -20°C                                                                                                                                                                                                   |
| Target-Kategorie       | Human MCP-1                                                                                                                                                                                                      |
| Application Verdünnung | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                                                                                                                            |
| Anwendungsbeschreibung | ELISA: Matched antibodies are available. Western Blot: React with human MCP-1. Neutralizing: The antibody neutralized 1nM recombinant human MCP-1 induced monocyte chemotaxis in blind well chemotaxis chambers. |
