## Product Datasheet

### Interleukin-6 (IL-6), Clone: [1B6], Mouse, Monoclonal ANO-MO-C40091E

|                          |                                                            |
|--------------------------|------------------------------------------------------------|
| Artikelname              | Interleukin-6 (IL-6), Clone: [1B6], Mouse, Monoclonal      |
| Artikelnummer            | ANO-MO-C40091E                                             |
| Hersteller Artikelnummer | MO-C40091E                                                 |
| Alternativnummer         | ANO-MO-C40091E-0.5MG, ANO-MO-C40091E-0.1MG                 |
| Hersteller               | Anogen-Yes Biotech Laboratories                            |
| Wirt                     | Mouse                                                      |
| Kategorie                | Antikörper                                                 |
| Applikation              | EIA, FC, WB                                                |
| Spezies Reaktivität      | Human                                                      |
| Immunogen                | Purified recombinant human IL-6                            |
| Produktbeschreibung      | Mouse monoclonal antibody to human interleukin-6 (IL-6)... |
| Klonalität               | Monoclonal                                                 |
| Klon-Bezeichnung         | [1B6]                                                      |
| Isotyp                   | IgG1,k                                                     |
| Reinheit                 | Protein G affinity purified                                |
| Formulierung             | Aff. pur.                                                  |
| Lagerung                 | Store at -20°C                                             |
| Target-Kategorie         | Human IL-6                                                 |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Double distilled water is recommended to reconstitute the antibody.                                                                                         |
| Anwendungsbeschreibung | ELISA: The antibody reacts with recombinant IL-6 antigen. Western blot: The antibody recognizes recombinant human IL-6 on blot. Fluorescence flow cytometry |
