| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Bovine                                                                                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Eukaryotic Bovine Aprotinin is a purified Eukaryotic Protein. Purity: >95% by SDS-PAGE. Host: 293F cell. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Bovine (Bos taurus). Target Name: Aprotinin. Accession Number: P00974. Expression Re... |
| Molekulargewicht         | 37kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag and C-Terminal Fc Region of Human IgG1                                                                                                                                                                                                     |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System        | Eukaryotic expression                                                                                                                                                                                                                                         |
| Reinheit                 | >95% by SDS-PAGE                                                                                                                                                                                                                                              |
