| Produktbeschreibung      | The B7-H4 protein acts as a negative regulator, inhibiting T cell-mediated immune responses, including activation, proliferation, cytokine production, and cytotoxicity. When expressed on tumor macrophages, it cooperates with regulatory T cells to sup... |
| Molekulargewicht         | Approximately 39-55 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
