| Expression System        | E.coli                                                                                                                                                                                                                                            |
| Reinheit                 | > 98 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                        |
| Formulierung             | Lyophilized from sterile 20 mM sodium citrate, 0.2 M NaCl, pH 3.5. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Thr 336-Arg 455                                                                                                                                                                                                                                   |
