| Expression System        | E.coli                                                                                                                                                                                                                                     |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                 |
| Formulierung             | Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Ser671-Arg748                                                                                                                                                                                                                              |
| Target-Kategorie         | Complement Component C3a,C3a                                                                                                                                                                                                               |
