| Format                           | IgG                                                                                                                                                                       |
| Spezifität                       | IgG (H+L)                                                                                                                                                                 |
| Minimale Kreuzreaktivität (MinX) | Gallus,Guinea pig,Hamster (syrian),Equine,Human,Mouse,Rabbit,Rat                                                                                                          |
| Klonalität                       | Polyclonal                                                                                                                                                                |
| Puffer                           | Buffer: 0.01M Sodium Borate - Sodium Phosphate, 0.15M NaCl, pH 8.5. Stabilizer: 15 mg/ml Bovine Serum Albumin (IgG-Free, Protease-Free). Preservative: 0.05% Sodium Azide |
| Reinheit                         | AffiniPure                                                                                                                                                                |

|                        |                                                                                                                                                                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Freeze-dried solid                                                                                                                                                                                                                                                          |
| Lagerung               | Storage and Rehydration: Store freeze-dried solid at 2-8°C.<br>Rehydrate with the indicated volume of dH <sub>2</sub> O and centrifuge if not clear. Prepare working dilution on day of use. Extended Storage after Rehydration: Aliquot and freeze undiluted product at... |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                          |
| Application Verdünnung | Histo-/Cyto-Chemistry:- 1:20-1:200 Dilution factors are presented in the form of a range because the optimal dilution is a function of many factors, such as antigen density, permeability, etc. The actual dilution used must be determined empirically.                   |
