| Artikelname              | Recombinant Human Tumor Necrosis Factor-alpha/TNFSF2, His                                                                           |
| Artikelnummer            | APE-P1262                                                                                                                           |
| Hersteller Artikelnummer | P1262                                                                                                                               |
| Alternativnummer         | APE-P1262-10UG,APE-P1262-100UG,APE-P1262-500UG                                                                                      |
| Hersteller               | ApexBio                                                                                                                             |
| Kategorie                | Proteine/Peptide                                                                                                                    |
| Molekulargewicht         | Approximately 18.3 kDa, a single, non-glycosylated polypeptide chain containing 164 amino acids with Met and 6 * His at N-terminus. |
| Reinheit                 | > 97 % by SDS-PAGE and HPLC analyses. Endotoxin: Less than 1 EU/µg of rHuTNF-alpha/TNFSF2, His as determined by LAL method.         |
