| Artikelname              | InVivoMAb anti-mouse MHC Class I (H-2Kb), Clone: [Y-3], Mouse, Monoclonal            |
| Artikelnummer            | BXC-BE0172                                                                           |
| Hersteller Artikelnummer | BE0172                                                                               |
| Alternativnummer         | BXC-BE0172-1MG,BXC-BE0172-5MG,BXC-BE0172-25MG,BXC-BE0172-50MG,BXC-BE0172-100MG       |
| Hersteller               | Bio X Cell                                                                           |
| Wirt                     | Mouse                                                                                |
| Kategorie                | Antikörper                                                                           |
| Spezies Reaktivität      | Mouse                                                                                |
| Immunogen                | Con A stimulated spleen cells from BALB.B mice                                       |
| Klonalität               | Monoclonal                                                                           |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                            |
| Klon-Bezeichnung         | [Y-3]                                                                                |
| Molekulargewicht         | 150 kDa                                                                              |
| Pubmed                   | <a href=https://pubmed.ncbi.nlm.nih.gov/26389800 target=_blank rel=nofollow>26389800 |
| Reinheit                 | 95% , Determined by SDS-PAGE                                                         |

|                        |                                                                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Formel                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                          |
| Target-Kategorie       | MHC Class I                                                                                                                                    |
| Anwendungsbeschreibung | in vivo MHC I blockade, MHC-I immunopeptidomics, Immunoprecipitation, Functional assays, Purification of MHC peptide complexes, Flow cytometry |
