## Product Datasheet

### **Recombinant Sus scrofa (pig) Fatty Acid Binding Protein, Intestinal (I-FABP), Transfected HEK293 Cell Culture Supernatant RAY-230-20314-200**

Artikelname	Recombinant Sus scrofa (pig) Fatty Acid Binding Protein, Intestinal (I-FABP), Transfected HEK293 Cell Culture Supernatant
Artikelnummer	RAY-230-20314-200
Hersteller Artikelnummer	230-20314-200
Alternativnummer	RAY-230-20314-200
Hersteller	RayBiotech
Kategorie	Proteine/Peptide
Spezies Reaktivität	Porcine
Produktbeschreibung	Recombinant Sus scrofa (pig) fatty acid binding protein, intestinal (I-FABP) overexpression cell culture supernatant, secreted from the serum-free medium of transfected HEK293 cells. Purchase will also include one vial of normal control (Catalog . 23...
Molekulargewicht	Recombinant protein product has a calculated molecular mass of 15. The actual molecular weight may increase slightly due to the potential post-translational modifications (PTMs).
Tag	His
Expression System	HEK293 cells

Reinheit	Unpurified cell culture supernatant. HEK293 cells grown in serum-free medium were transfected with expression vector harboring target gene. The cell culture was harvested with centrifugation to remove cells. The cell culture supernatant containing mammalian cell protease inhibitor cocktail was aliquoted and stored at -80C immediately. The gene overexpression in culture supernatant was confirmed by Western blotting using anti-His tag antibody and/or target-specific antibodies and the culture supernatant derived from HEK293 cells transfected with the empty expression vector was used as a negative control.
Formulierung	Pink liquid
Sequenz	Ala2-Asn132
Formel	Cell culture supernatant of transfected HEK293 cells, serum-free.
