| Kategorie                | Antikörper                                                                                                                                                                                                                               |
| Immunogen                | Immunogen was synthetic phosphorylated peptide derived from human Tau . This antibody was obtained from a rabbit immunized with the immunogen. The IgG fraction of immunized serum was purified by two step affinity chromatography.     |
| Produktbeschreibung      | Rabbit anti-Hyper-phosphorylated-Tau (pThr181) Antibody...                                                                                                                                                                               |
| Klonalität               | Polyclonal                                                                                                                                                                                                                               |
| UniProt                  | NP_058518                                                                                                                                                                                                                                |
| Sequenz                  | CAPKT(P)PPSSGE                                                                                                                                                                                                                           |
| Anwendungsbeschreibung   | ELISA (recommended work dilution= 1: 2,000-4,000), Western Blotting (recommended work dilution= 2-5 µg/ml), Note: Other applications are not tested yet. Optimal dilutions should be determined by each laboratory for each application. |
