| Hersteller               | RayBiotech                                                                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                |
| Immunogen                | Immunogen was synthetic peptide derived from Human POMC. This antibody was produced from a rabbit immunized with the immunogen. The IgG fraction was purified from rabbitt serum by ammonium sulphate precipitation followed by Protein A/G affinity chromatography. |
| Produktbeschreibung      | Rabbit Anti-Human POMC Antibody...                                                                                                                                                                                                                                   |

| Anwendungsbeschreibung | <p>ELISA (recommended work dilution= 1:10e5), Western Blotting (recommended work dilution= 1:1000-2000(at least)), (see image)Immunodetection Analysis: Representative blot from a previous lot. Lane 1.protein marker, Lane 2.Reference control, Lane 3. 3T3-L1 cell lysate, Lane 4. Hela cell lysate, Lane 5. NIH3T3 cell lysate. The membrane blot was probed with anti-POMC primary antibody(1 µg/ml). Proteins were visualized using a goat anti-rabbit secondary antibody conjugated to HRP and chemiluminescence detection system. Arrows indicate cellular POMC-associated protein from cells.</p> |
