| Kategorie                | Antikörper                                                                                                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                                                    |
| Immunogen                | Immunogen was recombinant protein derived from human IL-8. This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with the immunogen. The IgG fraction of tissue culture supernatant was purified by Protein G/A affinity chromatography. |
| Produktbeschreibung      | Mouse Anti-Human IL-8/CXCL8 Antibody...                                                                                                                                                                                                                                                                                  |
