| Hersteller               | Krishgen Biosystems                                                                                                                                                                                                                                           |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | This GENLISA Rat Calca (Calcitonin gene-related peptide 1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Valid... |
| Detektionsbereich        | 15.625 - 1000 pg/ml                                                                                                                                                                                                                                           |
| Sensitivitaet            | 9.375 pg/ml                                                                                                                                                                                                                                                   |
| Proben                   | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
