| Hersteller               | Krishgen Biosystems                                                                                                                                                                                                                                              |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                              |
| Produktbeschreibung      | This GENLISA Rat FLAP (5-Lipoxygenase Activating Protein) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated... |
| Detektionsbereich        | 15.625 - 1000 pg/ml                                                                                                                                                                                                                                              |
| Sensitivität             | 9.375 pg/ml                                                                                                                                                                                                                                                      |
| Proben                   | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                            |
