| Hersteller               | Krishgen Biosystems                                                                                                                                                                                                                                           |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | This GENLISA Rat GOT1 (Aspartate Aminotransferase, Cytoplasmic) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision ... |
| Detektionsbereich        | 3.125 - 200 mIU/ml                                                                                                                                                                                                                                            |
| Sensitivitaet            | 1.875mIU/ml                                                                                                                                                                                                                                                   |
| Proben                   | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
