Product Datasheet

Recombinant Borrelia VisE1 Antigen, His-tagged CRM-BVE-026

Artikelname	Recombinant Borrelia VisE1 Antigen, His-tagged
Artikelnummer	CRM-BVE-026
Hersteller Artikelnummer	BVE-026
Alternativnummer	CRM-BVE-026-1
Hersteller	Creative BioMart
Kategorie	Proteine/Peptide
Molekulargewicht	18800.0 Da
Reinheit	> 99% by SDS-Page and HPLC analysis

Anwendungsbeschreibung

This drug is a leucocyte growth factor indicated to: Decrease the incidence of infection, as manifested by febrile neutropenia, in patients with nonmyeloid malignancies receiving myelosuppressive anti-cancer drugs associated with a significant incidence of severe neutropenia with fever. Reduce the time to neutrophil recovery and the duration of fever, following induction or consolidation chemotherapy treatment in patients with acute myeloid leukemia (AML) Reduce the duration of neutropenia and neutropenia-related clinical sequelae, e.g., febrile neutropenia, in patients with nonmyeloid malignancies undergoing myeloablative chemotherapy followed by bone marrow transplantation (BMT) Mobilize autologous hematopoietic progenitor cells into the peripheral blood for collection by leukapheresis Reduce the incidence and duration of sequelae of severe neutropenia (e.g., fever, infections, oropharyngeal ulcers) in symptomatic patients with congenital neutropenia, cyclic neutropenia, or idiopathic neutropenia. Neupogen is approved for treatment of patients with radiation-induced myelosuppression following a radiological/nuclear incident.
