| Alternativnummer         | CRM-CD33-459H-50                                                                                                                                                                                                                                          |
| Hersteller               | Creative BioMart                                                                                                                                                                                                                                          |
| Wirt                     | Human                                                                                                                                                                                                                                                     |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                          |
| Molekulargewicht         | Siglec-3-Fc Chimera migrates as a broad band between 60 and 75 kDa on SDS-PAGE due to post-translation modifications, in particular glycosylation. This compares with the unmodified Siglec-3 - Fc Chimera that has a predicted molecular mass of 54 kDa. |
| Tag                      | Fc                                                                                                                                                                                                                                                        |
| Quelle                   | Human                                                                                                                                                                                                                                                     |
| Reinheit                 | >95%, as determined by SDS-PAGE and visualized by Coomassie Brilliant Blue.                                                                                                                                                                               |
| Anwendungsbeschreibung   | For Research Use Only. Not intended for any clinical use.                                                                                                                                                                                                 |
