## Product Datasheet

### **Active Recombinant Human Lymphotoxin Alpha (TNF Superfamily, Member 1) CRM-LTA-165H**

Artikelname	Active Recombinant Human Lymphotoxin Alpha (TNF Superfamily, Member 1)
Artikelnummer	CRM-LTA-165H
Hersteller Artikelnummer	LTA-165H
Alternativnummer	CRM-LTA-165H-100
Hersteller	Creative BioMart
Wirt	Human
Kategorie	Proteine/Peptide
Molekulargewicht	Lymphotoxin-alpha migrates as a broad band between 20 and 25 kDa in SDS-PAGE due to post-translation modifications, in particular glycosylation. This compares with the unmodified Lymphotoxin-alpha that has a predicted molecular mass of 18.7kDa.
Tag	Non
Quelle	Human
Reinheit	>95%, as determined by SDS-PAGE and visualized by Coomassie Brilliant Blue.
Anwendungsbeschreibung	For Research Use Only. Not intended for any clinical use.
