| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Glucosylceramidase that catalyzes, within the lysosomal compartment, the hydrolysis of glucosylceramide/GlcCer into free ceramide and glucose. Thereby, it plays a central role in the degradation of complex lipids and the turnover of cellular membrane... |
| Molekulargewicht         | 57.5 kDa                                                                                                                                                                                                                                                      |
| Tag                      | C-10*His                                                                                                                                                                                                                                                      |
| NCBI                     | <a href="#">04062</a>                                                                                                                                                                                                                                         |
| Puffer                   | 0.1 M Sodium citrate, pH5.5                                                                                                                                                                                                                                   |
| Reinheit                 | 90%                                                                                                                                                                                                                                                           |
