## Product Datasheet

### Goat Anti-Mouse IgG2b (Heavy chain) antibody, pre-adsorbed (PE-Cy7), PE/Cy7, Polyclonal GTX04214-10

|                          |                                                                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Goat Anti-Mouse IgG2b (Heavy chain) antibody, pre-adsorbed (PE-Cy7), PE/Cy7, Polyclonal                                                            |
| Artikelnummer            | GTX04214-10                                                                                                                                        |
| Hersteller Artikelnummer | GTX04214-10                                                                                                                                        |
| Alternativnummer         | GTX04214-10-250                                                                                                                                    |
| Hersteller               | GeneTex                                                                                                                                            |
| Wirt                     | Goat                                                                                                                                               |
| Kategorie                | Antikörper                                                                                                                                         |
| Applikation              | ELISA, ELISpot, FC, ICC, IHC-Fr, IHC-P, WB                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                              |
| Immunogen                | Pooled antisera from goats hyperimmunized with mouse IgG2b                                                                                         |
| Konjugation              | PE/Cy7                                                                                                                                             |
| Klonalität               | Polyclonal                                                                                                                                         |
| Konzentration            | 0.25 mg/ml (Please refer to the vial label for the specific concentration.)                                                                        |
| Sensitivitaet            | Pre-adsorbed with Mouse IgG1, IgG2a, IgG3, IgM, and IgA, human immunoglobulins and pooled sera. May react with immunoglobulins from other species. |
| Puffer                   | PBS, a stabilizer, 0.09% sodium azide.                                                                                                             |

|                        |                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid                                                                                                                           |
| Target-Kategorie       | IgG2b (Heavy chain)                                                                                                              |
| Anwendungsbeschreibung | FCM: 0.1 µg/106cells. *Optimal dilutions/concentrations should be determined by the researcher.Not tested in other applications. |
