| Spezies Reaktivität      | Human                                                                                                                                                                                   |
| Immunogen                | Ala2-Gly403                                                                                                                                                                             |
| Produktbeschreibung      | Recombinant Human IDO-1 Protein is produced by <i>E. coli</i> expression system. The target protein is expressed with sequence (Ala2-Gly403) of human IDO-1 (Accession NP_002155.1).... |
| Konzentration            | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                               |
| Molekulargewicht         | 45.19 kDa                                                                                                                                                                               |
| Tag                      | No tag                                                                                                                                                                                  |
| NCBI                     | <a href="#">3620</a>                                                                                                                                                                    |
| UniProt                  | <a href="#">P14902</a>                                                                                                                                                                  |
| Quelle                   | E. coli                                                                                                                                                                                 |
| Reinheit                 | 95 % as determined by SDS-PAGE.                                                                                                                                                         |

|                        |                                                                                                                                      |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized from a 0.22 µm filtered solution of 50mM Tris, 150mM NaCl, pH 8.0.Contact us for customized product form or formulation. |
| Target-Kategorie       | IDO-1                                                                                                                                |
| Application Verdünnung | Lyophilized from a 0.22 µm filtered solution of 50mM Tris, 150mM NaCl, pH 8.0.Contact us for customized product form or formulation. |
| Anwendungsbeschreibung | ResearchArea: Immune Checkpoint. Shipping: Ice Bag                                                                                   |
