| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Asp1242-Leu1487                                                                                                                                                                                                                                               |
| Produktbeschreibung      | Recombinant Human Collagen II alpha 1/COL2A1 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Asp1242-Leu1487) of Human Collagen II alpha 1/COL2A1 (Accession NP_149162.2) fused with a hFc tag at th... |
| Konzentration            | < 0.01 EU/μg of the protein by LAL method                                                                                                                                                                                                                     |
| Molekulargewicht         | 53.36 kDa                                                                                                                                                                                                                                                     |
| Tag                      | N-hFc                                                                                                                                                                                                                                                         |

| UniProt                  | <a href="#">P02458</a>                                                                                                                                                                                                                                        |

|                        |                                                              |
|------------------------|--------------------------------------------------------------|
| Quelle                 | HEK293 cells                                                 |
| Reinheit               | 90% as determined by SDS-PAGE.                               |
| Formulierung           | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Target-Kategorie       | COL2A1                                                       |
| Application Verdünnung | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Anwendungsbeschreibung | ResearchArea: Other Recombinant Protein. Shipping: Ice Bag   |
