| Immunogen                | Val30-Ser105                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Recombinant Mouse CXCL4/PF-4 Protein is produced by Pichia expression system. The target protein is expressed with sequence (Val30-Ser105) of Mouse CXCL4/PF-4 (Accession NP_064316.1) fused with a His tag at the C-terminus.... |
| Konzentration            | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                                                                                     |
| Molekulargewicht         | 9.04 kDa                                                                                                                                                                                                                                      |
| Tag                      | C-His                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                          |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quelle                 | Pichia                                                                                                                                                   |
| Reinheit               | 90 % as determined by SDS-PAGE.                                                                                                                          |
| Formulierung           | Lyophilized from 0.22 µm filtered solution in 20mM pb,150mM NaCl ,1mM EDTA (pH 6.0). Normally 8% trehalose is added as protectant before lyophilization. |
| Target-Kategorie       | CXCL4/PF-4                                                                                                                                               |
| Application Verdünnung | Lyophilized from 0.22 µm filtered solution in 20mM pb,150mM NaCl ,1mM EDTA (pH 6.0). Normally 8% trehalose is added as protectant before lyophilization. |
| Anwendungsbeschreibung | ResearchArea: Cytokines & Cytokine receptors,Cell Culture related.<br>Shipping: Ice Bag                                                                  |
