| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | His25-103Gly                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant HumanITPRIPL1/KIAA1754L/CD3L1 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (His25-103Gly) of Human ITPRIPL1/KIAA1754L/CD3L1 Protein (Accession NP_001008949.1) fused with a hFc&His ta... |
| Konzentration            | < 0.01 EU/µg of the protein by LAL method                                                                                                                                                                                                                     |
| Molekulargewicht         | 36.07 kDa                                                                                                                                                                                                                                                     |
| Tag                      | C-hFc&His                                                                                                                                                                                                                                                     |
| NCBI                     | <a href="#">150771</a>                                                                                                                                                                                                                                        |

| Quelle                   | HEK293 cells                                                                                                                                                                                                                                                  |

|                        |                                                              |
|------------------------|--------------------------------------------------------------|
| Reinheit               | 90 % as determined by SDS-PAGE.                              |
| Formulierung           | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Target-Kategorie       | ITPRIPL1/KIAA1754L                                           |
| Application Verdünnung | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Anwendungsbeschreibung | ResearchArea: Other Recombinant Protein. Shipping: Ice Bag   |
