| Produktbeschreibung      | The protein encoded by this gene is a member of the STAT family of transcription factors. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
