### Rabbit Antiserum anti-Guinea Pig IgG (F(ab)2)-unconj., MinX none DNA-SEC-182431

|                                  |                                                                  |
|----------------------------------|------------------------------------------------------------------|
| Artikelname                      | Rabbit Antiserum anti-Guinea Pig IgG (F(ab)2)-unconj., MinX none |
| Artikelnummer                    | DNA-SEC-182431                                                   |
| Hersteller Artikelnummer         | SEC-182431                                                       |
| Alternativnummer                 | DNA-SEC-182431                                                   |
| Hersteller                       | dianova                                                          |
| Wirt                             | Rabbit                                                           |
| Kategorie                        | Antikörper                                                       |
| Applikation                      | ELISA,IHC,WB                                                     |
| Spezies Reaktivität              | Guinea pig                                                       |
| Immunogen                        | Guinea Pig IgG F(ab)2 fragment                                   |
| Konjugation                      | Unconjugated                                                     |
| Format                           | Antiserum                                                        |
| Spezifität                       | IgG (F(ab')2)                                                    |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                              |
| Klonalität                       | Polyclonal                                                       |
| Konzentration                    | 90 mg/mL                                                         |
| Puffer                           | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2       |

|                        |                                                                                                                                                                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | This product was prepared from monospecific antiserum by delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, Guinea Pig IgG F(ab') <sub>2</sub> . No reaction was observed against Guinea Pig IgG F(c). |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                       |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                                |
| Application Verdünnung | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                                                 |
| Anwendungsbeschreibung | This product is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.                 |
