## Product Datasheet

### **Rabbit Antiserum anti-Mouse IgG (F(ab)2)-unconj., MinX none DNA-SEC-182453**

|                                  |                                                             |
|----------------------------------|-------------------------------------------------------------|
| Artikelname                      | Rabbit Antiserum anti-Mouse IgG (F(ab)2)-unconj., MinX none |
| Artikelnummer                    | DNA-SEC-182453                                              |
| Hersteller Artikelnummer         | SEC-182453                                                  |
| Alternativnummer                 | DNA-SEC-182453                                              |
| Hersteller                       | dianova                                                     |
| Wirt                             | Rabbit                                                      |
| Kategorie                        | Antikörper                                                  |
| Applikation                      | ELISA,IHC,WB                                                |
| Spezies Reaktivität              | Mouse                                                       |
| Immunogen                        | Mouse IgG F(ab)2 fragment                                   |
| Konjugation                      | Unconjugated                                                |
| Format                           | Antiserum                                                   |
| Spezifität                       | IgG (F(ab')2)                                               |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                         |
| Klonalität                       | Polyclonal                                                  |
| Konzentration                    | 28.0 mg/mL                                                  |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2     |

|                        |                                                                                                                                                                                                                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, Mouse IgG, Mouse IgG F(ab') <sub>2</sub> and Mouse Serum. No reaction was observed against Mouse IgG F(c). |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                                         |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                                                  |
| Application Verdünnung | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                                                                   |
| Anwendungsbeschreibung | Secondary antibody reagents are ideal for ELISA, western blotting, Immunohistochemistry, Fluorescence Microscopy, Flow Cytometry as well as other antibody detection methods.                                                                                                                       |
