### Rabbit Antiserum anti-Swine IgG (H+L)-unconj., MinX none DNA-SEC-182468

|                                  |                                                          |
|----------------------------------|----------------------------------------------------------|
| Artikelname                      | Rabbit Antiserum anti-Swine IgG (H+L)-unconj., MinX none |
| Artikelnummer                    | DNA-SEC-182468                                           |
| Hersteller Artikelnummer         | SEC-182468                                               |
| Alternativnummer                 | DNA-SEC-182468                                           |
| Hersteller                       | dianova                                                  |
| Wirt                             | Rabbit                                                   |
| Kategorie                        | Antikörper                                               |
| Applikation                      | ELISA,IHC,WB                                             |
| Spezies Reaktivität              | Porcine                                                  |
| Immunogen                        | Swine IgG whole molecule                                 |
| Konjugation                      | Unconjugated                                             |
| Format                           | Antiserum                                                |
| Spezifität                       | IgG (H+L)                                                |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                      |
| Klonalität                       | Polyclonal                                               |
| Konzentration                    | 90 mg/mL                                                 |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2  |

|                        |                                                                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, Swine IgG and Swine Serum. |
| Formulierung           | Lyophilized                                                                                                                                                                                                         |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                  |
| Application Verdünnung | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                   |
| Anwendungsbeschreibung | Anti-Swine IgG antibody has been tested in western blot and is suitable for use in ELISA and immunohistochemistry. Specific conditions for reactivity should be optimized by the end user.                          |
