| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IF, IHC, WB                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | This MET antibody was produced from mice immunized with purified recombinant protein encoding the catalytic domain of human MET/HGFR.                                                                                                                         |
| Produktbeschreibung      | The proto-oncogene MET product is the hepatocyte growth factor receptor and encodes tyrosine-kinase activity. The primary single chain precursor protein is post-translationally cleaved to produce the alpha and beta subunits, which are disulfide linke... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [6AT1785]                                                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">P08581</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                |
| Antibody Type          | Primary Antibody                                                                                                          |
| Application Verdünnung | Immunofluorescence: 1:200,IHC (Paraffin): 1:10-1:50                                                                       |
| Anwendungsbeschreibung | Titration of the MET antibody (HGFR) may be required due to differences in protocols and secondary/substrate sensitivity. |
