| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 457-486 from the human protein was used as the immunogen for this Dnmt3a antibody.                                                                                                                                                   |
| Produktbeschreibung      | CpG methylation is an epigenetic modification that is important for embryonic development, imprinting, and X-chromosome inactivation. Studies in mice have demonstrated that DNA methylation is required for mammalian development. Dnmt3a is a DNA methyl... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">Q9Y6K1</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                              |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                      |
| Application Verdünnung | Western blot: 1:1000,IHC (Paraffin): 1:10-1:50                                                                        |
| Anwendungsbeschreibung | Titration of the Dnmt3a antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
