| Kategorie                | Antikörper                                                                                                                                                                                                                                                                          |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                                        |
| Immunogen                | A portion of amino acids 1-30 from the human protein was used as the immunogen for this Myogenin antibody.                                                                                                                                                                          |
| Produktbeschreibung      | Myogenin is a muscle-specific transcription factor that can induce myogenesis in a variety of cell types in tissue culture. It is a member of a large family of proteins related by sequence homology, the helix-loop-helix (HLH) proteins. It is essential for muscle development. |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">P15173</a>                                                                                                                                                                                                                                                              |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                                                    |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                                          |

|                        |                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                        |
| Application Verdünnung | Western blot: 1:1000                                                                                                    |
| Anwendungsbeschreibung | Titration of the Myogenin antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
