### Wee2 Antibody, Rabbit, Polyclonal NSJ-F43870-0.08ML

|                          |                                                                                                                  |
|--------------------------|------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Wee2 Antibody, Rabbit, Polyclonal                                                                                |
| Artikelnummer            | NSJ-F43870-0.08ML                                                                                                |
| Hersteller Artikelnummer | F43870-0.08ML                                                                                                    |
| Alternativnummer         | NSJ-F43870-0.08ML                                                                                                |
| Hersteller               | NSJ Bioreagents                                                                                                  |
| Wirt                     | Rabbit                                                                                                           |
| Kategorie                | Antikörper                                                                                                       |
| Applikation              | ELISA, IHC, WB                                                                                                   |
| Spezies Reaktivität      | Human, Mouse                                                                                                     |
| Immunogen                | A portion of amino acids 364-393 from the mouse protein was used as the immunogen for this Wee2 antibody.        |
| Produktbeschreibung      | Phosphorylates and inhibits CDK1. May act as a negative regulator of entry into mitosis (G2 to M transition).... |
| Klonalität               | Polyclonal                                                                                                       |
| UniProt                  | <a href="#">Q66JT0</a>                                                                                           |
| Reinheit                 | Antigen affinity                                                                                                 |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                       |
| Antibody Type            | Primary Antibody                                                                                                 |
| Application Verdünnung   | Western blot: 1:1000,IHC (Paraffin): 1:10-1:50                                                                   |

Anwendungsbeschreibung

Titration of the Wee2 antibody may be required due to differences in protocols and secondary/substrate sensitivity.
