| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FACS, IF, IHC, WB                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 89-117 from the human protein was used as the immunogen for this PHB antibody.                                                                                                                                                       |
| Produktbeschreibung      | Prohibitin is an evolutionarily conserved protein that is ubiquitously expressed. It is thought to be a negative regulator of cell proliferation and may be a tumor suppressor. Mutations have been linked to sporadic breast cancer. Prohibitin is expres... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P35232</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                    |
|------------------------|--------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                   |
| Application Verdünnung | IHC (Paraffin): 1:10-1:50,Western blot: 1:1000,Immunofluorescence: 1:10-1:50,Flow Cytometry: 1:10-1:50             |
| Anwendungsbeschreibung | Titration of the PHB antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
