| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 294-325 from the human protein was used as the immunogen for this ACO2 antibody.                                                                                                                                                     |
| Produktbeschreibung      | Aconitase 2 belongs to the aconitase/IPM isomerase family. It is an enzyme that catalyzes the interconversion of citrate to isocitrate via cis-aconitate in the second step of the TCA cycle. It was found to be one of the mitochondrial matrix proteins ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">Q99798</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                    |
| Application Verdünnung | Western blot: 1:500-1000,IHC (Paraffin): 1:10-1:50                                                                  |
| Anwendungsbeschreibung | Titration of the ACO2 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
