| Hersteller Artikelnummer | F53004-0.08ML                                                                                                                                                              |
| Alternativnummer         | NSJ-F53004-0.08ML                                                                                                                                                          |
| Hersteller               | NSJ Bioreagents                                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                                                     |
| Kategorie                | Antikörper                                                                                                                                                                 |
| Applikation              | ELISA, WB                                                                                                                                                                  |
| Spezies Reaktivität      | Mouse                                                                                                                                                                      |
| Immunogen                | This mouse Olig1 antibody was produced from a rabbit immunized with a KLH conjugated synthetic peptide between 161-184 amino acids from the Central region of mouse Olig1. |
| Produktbeschreibung      | Promotes formation and maturation of oligodendrocytes, especially within the brain. Cooperates with OLIG2 to establish the pMN domain of the embryonic neural tube....     |
| Klonalität               | Polyclonal                                                                                                                                                                 |
| UniProt                  | <a href="#">Q9JKN5</a>                                                                                                                                                     |
| Reinheit                 | Antigen affinity                                                                                                                                                           |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                 |

|                        |                                                                                                                      |
|------------------------|----------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                     |
| Application Verdünnung | Western blot: 1:1000                                                                                                 |
| Anwendungsbeschreibung | Titration of the Olig1 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
