| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 307-336 from the human protein were used as the immunogen for the DRD2 antibody.                                                                                                                                                     |
| Produktbeschreibung      | This gene encodes the D2 subtype of the dopamine receptor. This G-protein coupled receptor inhibits adenylyl cyclase activity. A missense mutation in this gene causes myoclonus dystonia, other mutations have been associated with schizophrenia. Altern... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P14416</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Antigen affinity purified                                                                                                                                                                                                                                     |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                                                                                         |
| Application Verdünnung | Western blot: 1:1000-1:2000                                                                                                                                                              |
| Anwendungsbeschreibung | The stated application concentrations are suggested starting points. Titration of the DRD2 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
