| Artikelname              | IFITM5 Antibody, Rabbit, Polyclonal                                                                      |
| Artikelnummer            | NSJ-F54346-0.4ML                                                                                         |
| Hersteller Artikelnummer | F54346-0.4ML                                                                                             |
| Alternativnummer         | NSJ-F54346-0.4ML                                                                                         |
| Hersteller               | NSJ Bioreagents                                                                                          |
| Wirt                     | Rabbit                                                                                                   |
| Kategorie                | Antikörper                                                                                               |
| Applikation              | FACS, IHC-P, WB                                                                                          |
| Spezies Reaktivität      | Human, Mouse                                                                                             |
| Immunogen                | A portion of amino acids 55-83 from the human protein was used as the immunogen for the IFITM5 antibody. |
| Produktbeschreibung      | Interferon-induced transmembrane protein 5 is required for normal bone mineralization. [UniProt]...      |
| Klonalität               | Polyclonal                                                                                               |
| UniProt                  | <a href="#">A6NNB3</a>                                                                                   |
| Reinheit                 | Antigen affinity purified                                                                                |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                               |
| Antibody Type            | Primary Antibody                                                                                         |

|                        |                                                                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Western blot: 1:500-1:2000,Flow cytometry: 1:25 (1x10e6 cells),Immunohistochemistry (FFPE): 1:25                                                                                           |
| Anwendungsbeschreibung | The stated application concentrations are suggested starting points. Titration of the IFITM5 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
